A Division of Foley Material Handling Co., Inc.

EXCEPTIONAL DURABILITY - MODERN TECHNOLOGY - UNBEATABLE VALUE

TURNTABLES - DROP TABLES - TRANSFER TABLES - OVERHEAD CRANES

The **FMH Railway Division** is the solution for rebuilding fleets of some of the oldest equipment in the nation, utilizing modern technology. We are dedicated to the extreme service requirements and long product life expectancy of the railroad industry. Backed by over 35 years of service to railroads across the country, our products are engineered around the tried and true designs of railway maintenance and handling machinery. Every new piece of equipment is custom engineered to meet your specific application, and in most cases fit within the existing dimensional envelope. Honoring the traditions of the railway industry, our products are built to last, and **built right here in the USA.**
